

next ten years to meet the University's goals. The specific elements of the Institutional Master Plan are outlined in this chapter.

---

## Proposed Institutional Projects - Boston

While Boston College's plans for the next ten years include projects on all three campuses, the sections in this chapter describe the specific projects on properties located in the City of Boston, which include the properties located on the Brighton

track and six tennis courts would be accommodated. The building also would contain support facilities for baseball, softball, tennis, and track, including locker rooms, rest rooms, modest concession space, and training space.

Multipurpose field 2. This field would be located on top of the field house structure, with field entry at grade near the southern edge of Bishop Peterson Hall. The field would have a synthetic surface and be lighted.

---

## Recreation Center

A new 200,000 sf Recreation Center will be constructed to replace the outmoded 35-year old Flynn Recreational Complex. The Recreation Center will include fitness equipment, indoor jogging track, swimming pool, multipurpose courts, and locker rooms. As with the Flynn Center, it will offer summer hours for local residents. It will be constructed on the site of Edmonds Hall, an existing nine-story, 790-bed dormitory, which is outdated and in need of extensive repairs. The existing site is bordered by St. Thomas More Road on the east, Campanella Drive on the south, Walsh Hall on the north, and tennis courts to the west.

## Cardinal's Residence

The first amendment to Boston College's IMP included the re-use of the former Cardinal's Residence as a conference and meeting facility for faculty, staff and

proposed institutional projects that involve new facilities. Table 3-2 describes the critical sequencing required for construction of new IMP projects.
